EXPERIENCE

Software Engineer & Associate Product Manager   May 2021 – Present
Anglepoint   *Lindon, UT*
- Leading design and implementation for new landing page and client engagement permissions engine; includes conducting user interviews, designing both features, creating and organizing backlog, and participating in coding said features
- Led redesign and implementation processes for both project management section and project permissions engine for internal software, which significantly upgraded outdated user experience and decreased loading times by up to 3 minutes
- Created full-stack report feature, which saves consultants 5+ hours of work per week each

Full-Stack Web Developer & UX Designer   Apr 2020 – May 2021
BYU Department of Physics and Astronomy   *Provo, UT*
- Led team in designing, developing, and managing React web application integrated with active directory, which saves professors 40+ hours of work each semester

Special Projects Manager & Product Specialist   Apr 2018 – July 2020
Mozenda   *Pleasant Grove, UT*
- Developed new prototype web crawler, which resulted in new product offering for clients
- Scraped, wrangled, and delivered large amounts of data including daily, weekly, and monthly deliveries; responsible for over $200,000 in revenue in under a year
- Created Google script spreadsheet automation that cut account health analysis time by 90%

Other Experience
- Customer Service Representative at DoTerra & Mozenda; 2017-2018

Volunteer Representative   Jul 2015 – Jul 2017
The Church of Jesus Christ of Latter-day Saints   *Rio de Janeiro, Brazil*
- Led groups of 10-12 missionaries by providing oversight, training, and motivation
- Performed service including construction, teaching English, gardening, and moving

PROJECTS
- **Capstone**: Developed a React/Typescript/Node app that combines task management with iCalendar integration for better planning and time management for Alpha Tutoring students
- INTEX 2 case competition: React/DRF listing/search & filter website hosted on AWS, dashboards from Tableau API, predictive calculator connected with Azure ML API
- RaspberryPi: Pressure sensor floor (Arduinos, RaspberryPi, Piezoelectric rubber)

EDUCATION

Master's in Information Systems Management   Graduated December 2021
